28 responses

No

Nothing

There should be a books for English medium students also.

Social media use less than an hour ka option nahi ha

No

So many questions has been asked.. Itne to exam me bhi nhi aate.. 😬 😬

Introducing a digital library system will be useful for students to expand their innovative thoughts.

teacher's should interact with students

Everything is fine

I just Want to say that sometimes so many work in college and all the teachers are arrange there like in exam or election and all ,so the college should let atleast 1 teacher in class.

All is good

No comments

improve college environment

Yes

Nhi

Provide online classes

Syllabus improvement is must

I have no query

Student Feedback Report – Govt. P.G. College New Tehri Academic Session 2022-23

This report summarizes student feedback on the syllabus, teaching & learning methods, and extracurricular activities for the students of all the courses. The feedback was collected through a survey distributed to all students enrolled in the course through google form.

IQAC was willing to know about the opinion of students regarding various aspects such as uses of smartphone and social media in current scenario, mode and medium of teaching, and how much acquainted they are with technology etc. Synthesis of the survey reveals that Majority of the respondents were girls from science faculty, though students from other faculties also participated in this survey. Students came from urban to semi urban area, admitted to New Education Policy and enthusiastic for their future prospects through this newly introduced system of education. When mode of lecture delivery was asked, they preferred English. Almost 90% of students are having their own smartphone, with basic computer skills and technical know-how of its working. Students also have their own social media account, which perceived as a great help to them in studies and other academic activities as well. Respondents were also aware about their syllabuses, which is adequate and equally challenging to them, with vast opportunity of options.

Students generally agreed that the syllabus is clearly outlined, good choice of elective courses with well-defined course objectives are given. Feedback indicates that the listed readings and resources were helpful and equally available in the library. Students are enthusiastic for the remedial classes and almost 90% respondents wished to continue the same in the coming sessions.

Students who have responded the survey are regular in the classes (64%), participated in various co-curricular activities such as Sports, cultural, student union election etc. With respect to their classroom studies, they found the instructor's explanations clear, the instructor fostered classroom participation and discussion in a very courteous manner, the chosen teaching methods were effective for learning, around 70-80% syllabus is covered in the classroom through various mode.

When asked about examination pattern, they prefer objective and subjective pattern equally, although few are happy with the assignment only. Majority of the chunk feels that the Internal method of evaluation is fare, timely shared and discusses in the classroom and if anything needed is advised by the instructor on due time as shown by majority of the respondents, i.e., 66% and it helps them in further improvement as 80% respondents said.

Students valued timely and constructive feedback on assignments, students found assessments fair and reflective of the material. In response to the available physical facilities, administrative support, and outside visits, they have submitted varying responses from good to satisfactory.

IQAC recommendations: As a college we need to understand which teaching methods were particularly helpful or unhelpful for the students. Our students are coming from far rural area, so we need hostel facilities and transportation facilities within the city especially for girls. For much more involvement we need to encourage scheduled sports, cultural activities and proper filed tours for students, this will enhance the student enrolment as well as health and interactive environment in college premises.

Action Taken: Feedback from students through 'Google Form' is taken and analysed for quality improvement and submitted to the head of the institution for perusal.
