COMBINED FEEDBACK ANALYSIS REPORT
"AY's: 2018-19, 2019-20, 2020-21 & 2021-22"

STAKEHOLDERS: 1. STUDENT 2. TEACHER 3. ALUMNI

GOVERNMENT PG COLLEGE, NEW TEHRI STUDENT SATISFACTORY SURVEY: 2018-19

The first questionnaire-based student satisfaction survey was conducted in the college by IQAC. Total 50 students from different disciplines participated in the survey. Majority of the respondents who completed the survey were in the 20-22 years age group who were pursuing their UG and PG from faculty of Sciences and Commerce.

This survey was intended to collect, various aspects such as student's perception towards the college, teaching and learning environment in the college, student-teacher relationship in the learning process, level of satisfaction among the learners and suggestion (if any) for the improvement of the current status of the college.

Responses of survey were analyzed by using statistical tools. It has been observed that maximum (more than 80%) syllabus was covered, and teachers were thoroughly prepared with effective communication skills and adequate pedagogical approach.

Students were truly satisfied and happy with the internal examination and evaluation pattern and other aspects such as classroom discussions, illustration and quality improvement etc.

Maximum teachers were equipped with ICT tools and utilized it for their classes. Among the respondents more than 25% strongly convinced about the overall quality of teaching and learning atmosphere in the college whereas few were neutral about their opinion.

Suggestions by respondent were also recorded. Some of the highlights from the responses are as follows:

Hindi medium books were in demand

Needs more furnished classrooms.

Digital library

Canteen facilities

Books covering entire syllabus.

NCC facility in college.

The IQAC of the college will put forth the above outcomes of the survey in the upcoming meeting for discussion and further analysis and improvement.

Recommendations and Advisory by the IQAC

Going by the above responses by the students the IQAC would like to suggest and advise the Institution to spare efforts so that quality books as reference as well as text in Hindi are made available to the students and that free access to various libraries is offered them. Efforts should also be made in order to turn the present classrooms into somewhat modern classrooms that are conducive to a better frame of mind and spirit for learning. NCC facility is important and must be introduced. Canteen facility is a difficult preposition raised by the students which can be deferred for some time though.

Student's Satisfaction Survey Report 2019-20

The Student Satisfaction Survey (SSS) was conducted in the college by IQAC. A total of 50 students from different disciplines randomly participated in the survey.   Majority of girl students enthusiastically participated in the Survey from all streams.

This survey was intended to collect various aspects such as student's perception towards the college, teaching and learning environment in the college, student-teacher relationship in the learning process, level of satisfaction among the learners and suggestions for the improvisation of the current academic arena in the mountain district of the State.

The survey was technology driven and the same was successfully undertaken through Google form. The collected response data (qualitative and quantitative), was duly collected and analyzed. The analysis showed the strength of the College, wherein it was found that the maximum (more than 80%) syllabus was timely covered. It reflects the discipline that has been the major strength on the part of academic fraternity and young knowledge aspirants. It was a healthy reflection that the communication of the faculty was effective and the knowledge base of the students was also a positive reflector with respect to the adequate pedagogical approach. Further it is worth mentioning that the communication skills were particularly in focus as the demand of the students pertaining to the delivery of the lectures in local dialect was taken due care-of, time and again.

Further, students were truly satisfied and happy with the internal examination and evaluation pattern and other aspects such as classroom discussions, illustration and quality improvement etc.

Maximum teachers (50-70%) were equipped with ICT tools and utilized it for their classes. Among the respondents more than 20% were strongly convinced about the overall quality of teaching and learning atmosphere in the college whereas few were neutral about their opinion. The same led to the scope of more facilitation for the improvisation of the skills in ICT. The said objective was achieved during the end of the session which had witnessed the pandemic struggle. The faculty and students stretched their capabilities to reach new zones of ICT based education systems in even the remote hills of the State.

Suggestions by respondents were also recorded. Some of the highlights from the responses are as follows:

✓   Hindi medium books were in demand.

✓   Delivery of Lectures in Local Language was welcomed.

✓ Need for more furnished classrooms.

✓ Usage of ICT was in high demand and e- based learning was in high demand.

✓ More information was demanded other than books.

The IQAC of the college put forth the above outcomes of the survey in the upcoming meeting for discussion and further analysis and improvement.

Suggestions and Advisory by the IQAC

Going by the above responses by the students, the IQAC would like to suggest and advise the Institution to spare efforts, so that quality books as reference as well as text in Hindi are made available to the students. Efforts should also be made in order to turn the present classrooms into somewhat modern classrooms that are conducive to a better frame of mind and spirit for learning. NCC facility is important and must be introduced. Canteen facility is a difficult preposition raised by the students which can be deferred for some time though.

Student's Satisfaction Survey Report 2020-2021

The Student Satisfaction Survey (SSS) was conducted in the college by IQAC. A total of 70 students from different disciplines randomly participated in the survey.   Majority of girl students enthusiastically participated in the Survey from all streams.

This survey was intended to collect, various aspects such as student's perception towards the college, teaching and learning environment in the college, online teaching mode, student-teacher relationship in the learning process, level of satisfaction among the learners and suggestions for the improvisation of the current academic arena in the mountain district of the State.

The survey was technology driven and the same was successfully undertaken through Google form. The collected response data (qualitative and quantitative), was duly collected and analyzed. The survey reveals that not only the majority of female students are benefiting from the education facilities provided by the college but these students are also actively participating in college activities as depicted by around 70% female respondents in the survey. The questionnaire has been formulated to understand the impact of switching to online teaching due to pandemic induced lockdown on the teaching-learning process in the institution. It is also an attempt to know how comfortable students are in terms of accessing, communicating, and understanding the online classes. Around 37% of the students, who participated in the survey, responded that they always attended online classes, while 11.3% never attended. Network issues proved to be the major reason for not attending online classes. It is remarkable that around 70% of the syllabus was covered even during the lockdown period, though the majority of students rated the preparation of the teachers as satisfactory. The faculty members' responses to online teaching was quite prompt and effective as 83% of the students felt that the teachers were effective and polite during the online classes. Around 50% of the respondent's access e-resources related to their subject which reveals the level of awareness among students regarding online study material. Around 70% of respondents are agreeing on the notion that their institute is providing multiple opportunities to learn and grow through initiatives such as internship programmes, student exchange and field visits etc. They are also satisfied with internal evaluation, though they have different opinions about examination patterns, as an equal number of respondents (around 40%) wished for objective and subjective exams, whereas few flipped between assignment and any of the patterns. Students (46%) are happy with their teachers, as they try to illustrate the concepts through examples and demonstrations, and at the same time they do feel that teachers identify their skills and nurture them through various extracurricular activities apart from teaching and learning.

Maximum teachers (50-60%) were equipped with ICT tools and utilized it for their classes. Among the respondents, more than 30% were strongly convinced about the overall quality of teaching and learning atmosphere in the college whereas few were neutral about their opinion. The same led to the scope of more facilitation for the improvisation of the skills in ICT. The said objective was achieved during the end of the session which had witnessed the pandemic struggle. Suggestions by respondents were also recorded. Some of the highlights from the responses are as follows:

✔ Need for more furnished smart-classrooms.

✔ Usage of ICT was in high demand and e- based learning was in high demand.

✔ More information was demanded other than books.

✔ Masters students demanded that college should give them permission to teach at least one junior class, in order to get teaching exposure.

✔ NCC certificate programme.

The IQAC of the college put forth the above outcomes of the survey in the upcoming meeting for discussion and further analysis and improvement.

Suggestions and Advisory by the IQAC

Considering the above responses of the students, the IQAC would like to suggest and advise the Institution to spare efforts, so that quality books as reference as well as text are made available to the students. Efforts should also be made in order to turn the present classrooms into somewhat modern classrooms that are conducive to a better frame of mind and spirit for learning. The NCC facility is important and must be introduced. Few trial based demonstration and extra classes can be assigned to the willing master's candidates, and initially it can be started based on matters of interest of the learners.

Student Satisfactory Survey & Feedback conducted by IQAC

Report for the academic session 2021-2022

Student's feedback survey was conducted by IQAC regarding student's perception about academics as well as other allied activities. This survey is also intended to know the actual problems which students are facing to access the college. The survey was conducted through Google forms and responses were recorded and analysed accordingly. Majority of female students from all the disciplines participated in this survey as has been reflected in the responses which shows that we promote gender equality in the Institution. This survey was collected amidst the pandemic and we intended to know the other challenges which our students might be facing. We analyzed that most of our students are coming from nearby rural areas and often opted for public transport to reach their destination.

As a result of the exposure of the students to online teaching during pandemic induced lockdown, a large number of students are now gadget friendly and able to work on Microsoft Office word, excel and presentation and they do spare a quality time on the internet for various study material other than social interactive purposes. Thus they prefer a blended mode of teaching even in the post pandemic period. More than 70% of respondents of the survey are regularly attending their classes, and majority of them are satisfied with the library facilities and happy as their teachers are helping and mentoring them in various aspects of teaching and learning. Almost 80% of the syllabus is covered in the classroom studies as revealed by 36% respondents on priority basis. The entire syllabus is adequate in their opinion but quite difficult to understand for those who prefer Hindi language as medium of study and writing examinations. To overcome this issue, as also shown during the previous survey, we asked them about remedial classes, for which maximum students are highly enthusiastic. Students are willing to participate in almost all types of extracurricular activities in college as the majority of them were involved in such activities even at the school level. A student seeks much more help and support from college administration, as their responses vary from not satisfied (16%) to highly satisfied (20%). Teachers identify student's skills every now and then in order to identify the slow learners for further remedial classes. The detailed findings of the survey are given here under.

Some of the highlights from the responses are as follows:

- ✓ Need for more furnished smart-classrooms.
- ✓ NCC certificate programme.
- ✓ Blended mode of learning.

The IQAC of the college put forth the above outcomes of the survey in an upcoming meeting for discussion and further analysis and improvement.

Suggestions and Advisory by the IQAC

✓ In response to the NEP-2020 from academic session 2022-23, IQAC suggested online classes for a few courses.

✓ Students are assuming that the prescribed syllabus is difficult. Thus IQAC suggested conducting SSS at departmental level as well.

✓ We have been conducting remedial classes since our last academic sessions, and need to continue this practice.

✓ Regarding extracurricular activities, students are willing to participate in NCC, thus we need to fasten up the process.

IQAC Teachers Survey Report for Academic Session 2019-2020

Teacher's satisfaction survey was conducted by IQAC of the college; this survey was conducted on different parameters such as opinion about syllabus, infrastructure, central library, academic environment, administrative staff, subordinate staff, and about the overall quality of learners of the college. This survey is intended to know the perception of teacher's about these parameters for further studies and improvement (if needed).

Majority of the faculty members from different disciplines participated in this Google forms survey. Results were collected and analyzed. It has been reported that faculties found the prescribed syllabus suitable as per the course but at the same time, in the current scenario it can be much more contemporary.

Prescribed number of books also varies from faculty wise, thus the survey marked different opinions.

Syllabus gives a good amount of flexibility and choices to opt any of the papers as per learner's choice. Internal examinations are conducted as per academic calendar, but often Affiliating University and College co-ordination is a must. Faculty members are upgrading themselves through various FDP/Induction/Orientation/Short-term training programs etc, and implementing the same while delivering their lectures as they have full flexibility to do so.

Academic environment is student-teacher friendly. Teachers have a very good opinion about their students on parameters such as in discipline, academics and extracurricular activities. Therefore, to give them best, they demand much furnished, decorated and upgraded classrooms and infrastructure.

All the faculties recommend training for their subordinate and library staff on urgent basis.

Most of faculty members strongly demands for following facilities in college:

- ✔ Sufficient number of teaching and office staff should be recruited.
- ✔ Departmental infrastructure needs to be improved.
- ✔ Autonomy for freedom to purchase books for the library.
- ✔ Curtail National Holidays; carry out NSS camps and events during vacations.
- ✔ Implement the academic calendar properly.
- ✔ Student's attendance should be strictly implemented.

✓ Need to focus on proper documentation of paperwork
✓ Results should be declared on time.

Suggestions AND Recommendations by IQAC:

The suggestions from the faculty were taken on record. The same was analyzed and discussed in the meeting. To achieve the same the need of the funds were realized. The College, thus, strengthened the existing Committee for raising funds from outer spheres. Special emphasis was made for fostering partnerships with Industry and ventures exploring possibilities of raising CSR based development facilities. For improvement of the Human Assets in the college exposure of the students and academia with the persons of academic excellence and professionals was recommended.

15. Give your suggestions to improve the overall academic environment of your institution. 34 responses

- 1.University must declare examinations and result in a proper time frame.
- 2. Syllabus required to be more contemporary.
- 3.college administration should be more student frenidly and more cooperative with teaching faculty.
- The focus of the College should be on classroom teaching rather than non academic activities.
- Ban student Unions, train teachers for area specific learners, freedom to teachers to buy books for library, curtail national holidays, carry out NSS camps and events during vacations.
- Infrastructure facilities in the college must be improved

- The library needs to be updated with new books in accordance with NEP
- Exam conducted by University should held on time.
- Results of semester/ year exams should be announced on time,as delayed announcement impact the studies of next semester/ year of the students.
- Establish a supportive learning culture. Each member of the learning community should have the feeling of connectedness. ...
- Results should be given on time
- Spacious classrooms with requisite furniture, boards, electrical fittings like lights and fans
- Clean and hygienic toilets
- Accessible drinking water
- Activity and play areas
- Laboratories with requisite instruments and equipment
- Computers for students to learn and experiment
- Teachers are key in ensuring that students get the requisite lessons that keep their minds ignited for seeking knowledge
- Extra-curricular activities are also a key component in sustaining a youngster's interest at college.
- Awareness
- 1.Clean and Green campus. 2.Clean and hygienic toilets, 3.Accessible drinking water, 4.Use current curriculum and teaching methods, 5.Give students a voice and a choice, 6.Review classroom procedures, 7.Taking feedback from students.
- Nurturing of the environment is the priority now
- Academic environment of the institution is good and well organised.reading room has been set up for this and to create better atmosphere among children to gain knowledge and enhance in their day today life.
- Implement the academic calender properly.
- Students attendance should be strictly implemented.
- Need to focus on proper documentation of paper work
- Results should be declared timely
- Sufficient number of teaching and office staff should be present, departmental infrastructure needs to improved.
- Infrastructure and research facilities needed to improve.
- Academic calender from admission to result must be strictly followed in university and colleges.
- Improve
- Improving Infrastructure, Well Equipped Library & Leveraging Technology
- Attendance of students needs to be regularised,all departments should have their own libraries,it should be made Compulsory for all the students to sit in the reading room of the

library thrice a week and Attendance in the library needs to be maintained. Reading habits among students need to be developed .

- Academic atmosphere of students and teachers are well design so that enhancement of academic should be well organized
- There must be suitable infrastructure and facilities in college
- Provide timely examination and result.
- Infrastructure and research facility should be in the department.
- Authority has to treat the entire institutional community with bird eye view

IQAC Teachers Survey Report for academic session 2020-2021

Teacher's satisfaction survey was conducted by IQAC of the college. The said survey was conducted to know the perception of teacher's about the academic environment and duties assigned to them.

Total 34 faculty members from different disciplines participated in this survey. Survey was conducted by using Google form, and results were collected and analyzed. It has been reported that a majority of the faculty found the syllabus suitable as per the course, and has a good balance between theory and practical syllabus. Prescribed number of books also varies from faculty wise thus the survey gathers different opinions. The faculty opined the need to balance availability of books in various subjects' streams. The faculty emphasized that per student per book ratio should increase. It was found that the syllabus is giving a good amount of flexibility and choices to opt any of the papers as per learner's choice. Internal examinations are conducted as per academic calendar, but most often the difficult terrain constraint creates hindrance. Apart from this university results plays an important role, which seems unfavorable as survey reveals.

Faculty members are getting good opportunities for upgrading themselves through various FDP/Induction/Orientation/Short-term training programs etc, and implementing their upgraded skills while delivering lectures. Academic environment is student-teacher friendly, faculties analyse their students strength and weakness and ranks them satisfactory to good on discipline, class performance and extracurricular activities.

All the faculties recommend training for their subordinate and library staff on basic computer skills, instrumentation and office management etc. on urgent basis.

Majority of faculty members strongly demanded for the following essentials:

- ✔ Staff canteen was in high demand.

- ✔ Needs flexibility and autonomy for utilization of funds allotted to the department, as per departmental need.

- ✔ Infrastructure improvement.

- ✔ Uninterrupted Wi-Fi facility.

- ✔ Need more academic staff.

✔ Attendance rules for students should be strictly implemented.

Suggestions and recommendation by IQAC: Findings of the above survey was discussed in the IQAC meeting and it has been suggested that we need to track students attendance through class attendance, and students below the required number of days should be called up for doing so.

Instrumentation   Basic Computer skills   Office management
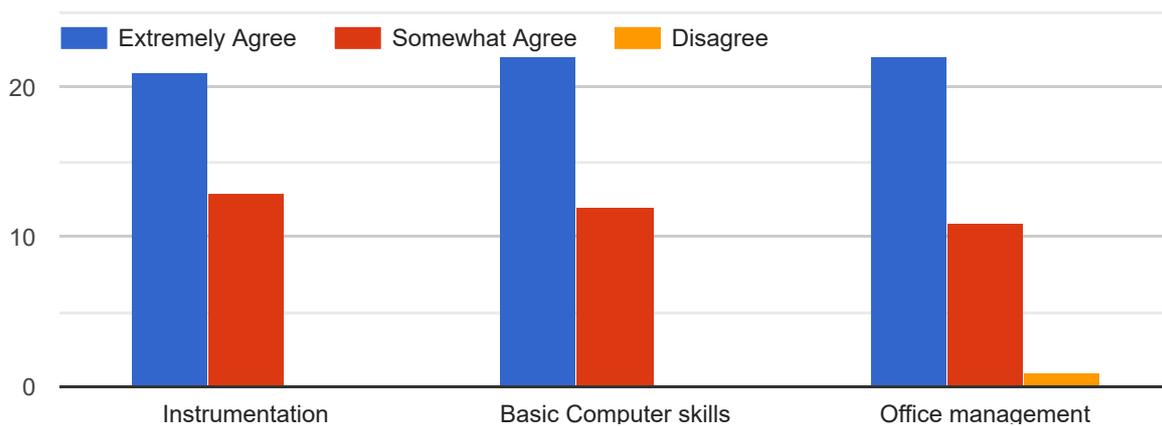

19. Give your suggestions to improve the overall academic environment of your institution.

34 responses

NA

Result should be declare at time.
Student attendance strictly followed

There should be seamless delegation of work and authority.

Basic amenities should be provided to thr students

Classroom teaching should be encouraged along with ICT

Focus of the Institute should be on classroom teaching rather than extra curricular activities every now and then.

Improvement in physical and academic infrastructure required

Awarness

It is absolutely necessary to conduct teaching and learning through modern technology in the college. Therefore, there should be an e-granthalaya for the students to study in the library.

Provide ICT tools and Instruments like projecter, computer /laptop etc

Office needs to maintain records properly.

Attendance of students should strictly implemented.

1.Clean and Green campus. 2.Clean and hygienic toilets, 3.Accessible drinking water, 4.Use current curriculum and teaching methods. 5. Taking feedback from students.

Adequate books should be available in the library for students

Improving the physical, mental, and emotional health of faculty can also have a direct impact on student learning and wellbeing.

Apart from other activities more focus should be on studies.

Innovation, good classroom and good infrastructure to improve.

There must be disciplin and healthy environment in college

Library updation, reading room updation, installation of modern ICT tools required

Need infrastructure for department for doing different seminar and other activity also.

Reference works in Hindi e made available

Adequate reference books and journals should be made available in the respective subjects

No any suggestions

Conductive environment

Promote the students for research work and innovative programs.

By arranging group discussion, field work, poster presentation, hands on training, debate competition, online seminar ect for students will get more interest in education.

Nil

Adequate motivators required to perform well

Time to time Teacher's assessment for the improvisation of teaching skills and professional development is also required. .

Promote of educational and research work in the college and inclusions of vocational education in the curriculum.

Infrastructure should be developed according to norms.

Quality Study material is required.

Teachers Feedback conducted by IQAC

Report for the academic session 2021-22

Teacher's satisfaction survey was conducted by IQAC of the college. The said survey was conducted to know the perception of teacher's about the academic environment and duties assigned to them.

Total 38 faculty members from different disciplines participated in this survey. Survey was conducted by using Google form, and results were collected and analyzed. It has been reported that a majority of the faculty found the syllabus suitable as per the course and at the same time they opined of the improvisation needs for futuristic needs.

Prescribed number of books also varies from faculty wise thus the survey gathers different opinions. The faculty opined the need to balance availability of books in various subjects' streams. The faculty emphasized that per student per book ratio should increase. The need for increasing the ratio of students and faculty usage of the Library should also increase.

It was found that the syllabus is giving a good amount of flexibility and choices to opt any of the papers as per learner's choice. Internal examinations are conducted as per academic calendar, but often the difficult geographical constraint is a big hindrance. Apart from this university results plays an important role, which seems unfavorable as it is marked by delays.

Faculty members are upgrading themselves as per the need of the time through various FDP/Induction/Orientation/Short-term training programs etc, and implementing the same while delivering their lectures.

Academic environment is student-teacher friendly but to conduct the classes using the latest modern technology the classrooms and infrastructure needs to be facilitated with updated infrastructure and furnishing needs in accordance with the said objective.

All the faculties recommend training for their subordinate and library staff on urgent basis.

Majority of faculty members strongly demanded for the following essentials:

- ✓ Staff canteen was in high demand.
- ✓ Needs flexibility and autonomy for utilization of funds allotted to the department, as per departmental need.

19. Do you feel that university is declaring results on due time?

38 responses

20. Do you feel that your subordinate staff should undergo training for their work?

38 responses

21. Give your suggestions to improve the overall academic environment of your institution.

38 responses

1.University should conduct exam in proper time and declare students result in time.
2.college should make educational calendar and it must be followed.
3.Election duties also disturbed the teaching- learning environment.

More infrastructure should be provided for all streams to update knowledge

Awareness about new innovations

Library and Reaserch Lab should be updated in the college level.

1.Should provide funds for field visits and academic tour
2.Give flexibility to utilize departmental funds from one category to another whichever is needed on need based

Classes must be well Equipped and need to be purchase new research journals

Suggestions for academic improvement -
1 - Continuity of students and teachers in classroom (flow of the lectures and studies should not be interrupted at any cost)
2- Teacher Student rapport (we should get connected with students either by sense of humour or knowledge, a teacher must have the quality of engagement and leadership parallelly)
For infrastructure improvement -
1 - Availability of basic facilities like toilet and drinking water are the main concern.

Time to time Lectures by distinguished professionals.

N.A

Classroom teaching should be encouraged rather than abundance of extra curricular activities.

Research activities should be promoted and Classroom teaching must be equipped with ICT

Good Books Should be provided to library.

Teacher should be introduced with new methodologies of teaching along with refresher couses in due time.

Urgent need of lab requirement, need of well equipped library to cover the syllabus as per NEP2020, proper internet connectivity and computer accessories at deparment level.

Basic amenities must be provided by the administration in college

More teaching techniques are to be needed for teachers and students

Lot needs to be done on all fronts

Frequent interactions with students and teachers are considered as the helpful technique to understand their needs and prohibit teacher-student agitation in college.

To improve research facilities.

. Improving the physical, mental, and emotional health of faculty can also have a direct impact on student learning and wellbeing.

There should be an apt redressal mechanism with minimum possibility for procrastination.

There must be scope for creative approach of learning, College should provide basic facility to do such activity, as a mathematics teacher we have so many planning about how can we make better environment of teaching learning, and also our objective to do mathematics learning through different activity, project presentation,and our main objective is how student will be able to generalise thing but for all these we want some basic need infrastructure as well as support to do such activity.

Academics should be given more freedom in terms of deciding and choosing their pace and

time for teaching and research based activities.

There needs to be provision of books in the library for faculty and students alike

NA

Authority has to understand the importance of bifurcation of working time in between academics and teaching. Environment to let the philosophy come back in research has to be created. At least basic need of today's academics has to be inculcated in the institution

Needed some more teaching staff
We should have some more equipment for better understanding of students.

Good Library ,Innovations, HardWork ,and Dicipline improve the environment of institution

Measure the students out comes and improve. Keep the campus ground clean and green. I suggest that transport facilities should provide by the institution for betterment of the students.

Established a supportive learning culture.
Keep a Positive Academic environment.
We use smart classrooms and all new technologies that are use to develop offline and online learning.

Improved the Research Activity

75 persent attendance should be mandatory for all students.

we should create a secure and dependable structure to improve overall academic environment in the institute.

महाविद्यालय में छात्रों की उपस्थिति अनिवार्य की जाए

More faculties should be enhanced and more research journals should be in the department

Creating a secure and dependable structure.

No suggestion

Mindset and Motivation for improvisation in Teaching standards. Focus on positive motivators and not punitive measures.

Alumni Feedback conducted by IQAC
Report for academic session 2021-2022

Alumni Association of the college was formed in 2021-2022 session with around 127 alumni from different disciplines are associated with the association. During the survey, alumni shared their opinions about various aspects, such as their experience with the college, faculties, academic exposure, and further prospects of the courses etc.

Survey shows that the majority of our alumni are working in the capacity of academicians, accountants, state services and politics. They feel proud to be a part of the college and would like to associate and contribute to its welfare.

Survey reveals that the majority of alumni have the opinion that college is excellent in academics and cultural activities but the facilities for sports and extracurricular activities must be upgraded.

Administration and faculty of the college is well qualified and updated as they promote the overall development of their students.

Some of the highlights from the responses are as follows:

- ✓ Career counselling is suggested by the alumni.
- ✓ An equipped placement cell is also suggested by the alumni
- ✓ Skill enhancement courses are also suggested

The IQAC of the college put forth the above outcomes of the survey in an upcoming meeting for discussion and further analysis and improvement.

Suggestions and Advisory by the IQAC:

- ✓ College needs to register the alumni association and should raise funds from the association for welfare activities in the college.

- ✓ Should invite the alumni for sharing their experiences with students in an informal manner as well.

11. Suggestions for improvement.

13 responses

Carrier counseling should be must for new students.

Skill Education is lacking

Make a list of old student union who are currently in good positions in political or administrative life and invite them to the program

Extra curriculum activity

Nothing

Nothing

For the future of children, teachers will have to make them creative along with education and all teachers will have to take classes continuously. Why not even have one child in the class?

PG College New tehri, best college for students and faculty best teachers provide for all students for bright future.

No comments

Good improvement , development for future in college.

Career counseling program and placement cell create in college

I would like to present my opinion at the mean time of congregation

Introduction of innovative infrastructure, technology to makes better teaching methods
