Student Satisfactory Survey & Feedback conducted by IQAC

Report for the academic session 2021-2022

Student's feedback survey was conducted by IQAC regarding student's perception about academics as well as other allied activities. This survey is also intended to know the actual problems which students are facing to access the college. The survey was conducted through Google forms and responses were recorded and analysed accordingly. Majority of female students from all the disciplines participated in this survey as has been reflected in the responses which shows that we promote gender equality in the Institution. This survey was collected amidst the pandemic and we intended to know the other challenges which our students might be facing. We analyzed that most of our students are coming from nearby rural areas and often opted for public transport to reach their destination.

As a result of the exposure of the students to online teaching during pandemic induced lockdown, a large number of students are now gadget friendly and able to work on Microsoft Office word, excel and presentation and they do spare a quality time on the internet for various study material other than social interactive purposes. Thus they prefer a blended mode of teaching even in the post pandemic period. More than 70% of respondents of the survey are regularly attending their classes, and majority of them are satisfied with the library facilities and happy as their teachers are helping and mentoring them in various aspects of teaching and learning. Almost 80% of the syllabus is covered in the classroom studies as revealed by 36% respondents on priority basis. The entire syllabus is adequate in their opinion but quite difficult to understand for those who prefer Hindi language as medium of study and writing examinations. To overcome this issue, as also shown during the previous survey, we asked them about remedial classes, for which maximum students are highly enthusiastic. Students are willing to participate in almost all types of extracurricular activities in college as the majority of them were involved in such activities even at the school level. A student seeks much more help and support from college administration, as their responses vary from not satisfied (16%) to highly satisfied (20%). Teachers identify student's skills every now and then in order to identify the slow learners for further remedial classes. The detailed findings of the survey are given here under.

Some of the highlights from the responses are as follows:

- ✓ Need for more furnished smart-classrooms.
- ✓ NCC certificate programme.
- ✓ Blended mode of learning.

The IQAC of the college put forth the above outcomes of the survey in an upcoming meeting for discussion and further analysis and improvement.

Suggestions and Advisory by the IQAC

- ✓ In response to the NEP-2020 from academic session 2022-23, IQAC suggested online classes for a few courses.
- ✓ Students are assuming that the prescribed syllabus is difficult. Thus IQAC suggested conducting SSS at departmental level as well.
- ✓ We have been conducting remedial classes since our last academic sessions, and need to continue this practice.
- ✓ Regarding extracurricular activities, students are willing to participate in NCC, thus we need to fasten up the process.

Nothing

No, already too good.

Books and girls toylet

Library

Please clean college washrooms . They are disgusting

Everything is good but Students have less strength in post graduation. So we should try to increase it.

gg

Improvement in library

Smart classes and sports

need smart classroom

- 1.The Sports facilities are not that good.
2. Trees in our campus got chopped because they drop to much leaves these days because of winter.

study with Hindi languag

Relevant books need to be acquired by college for library in both English and Hindi as its hard to get books related to university syllabus

ONLINE LEARNING

BOOKS PROBLAM

I SUGGESTED THE TEACHER TEACH IN HIGHLY PROJECTER AND LAB

SPORTS PROBLAM

LEARNING PROBLEM

TEACHING IN COMPUTER

music class And dancing class And play ground...

1. Teachers should teach their classes properly.
2. Teachers should also motivate dumb students for the studies that they can make their future perfect.

All Ok

1. Provide advance lab facilities for science students.
2. There should be proper library and books facilities for master's students.

nothing

lab

Library books

Practical classes should also be done with theory classes .

Nothing

Already too good
