7.1.2 REPORT OF THE ACTIVITY FOR IMPLEMENTATION

ENERGY CONSERVATION MEASURES (PHASE I)

As per the recommendation of IQAC, installation of LED Bulbs and Sensor Bulbs was undertaken in the latter part of the assessment period as an energy conservation initiative. Around 59 LEDs and 9 sensor bulbs were installed as per the bill numbers Se/17-18 31, Se/2021-22 305, Se/2022-2023 894 and Se/2021-22 1014. Five solar street lighting systems have been bought from UREDA as per bill No. 966/038.

We intend to take the above initiative to the second phase by measuring the amount of energy conserved by taking the above steps and ultimately aiming for a green audit of the Institution by the competent authority.

MANAGEMENT OF DEGRADABLE AND NON-DEGRADABLE WASTE (PHASE I)

Separate pits have been constructed for management of degradable and biodegradable waste in the College. The expenses for the same were borne from the Namami Gange and the College fund.

WATER CONSERVATION: RAIN WATER HARVESTING (PHASE I)

Rain water harvesting is being done in the Institution and the stored water is being used for watering the plants, cleaning, etc. The practice is still in the nascent stage and is yet to achieve its desired objective to the fullest. The expenses for the same were borne from the Namami Gange and the College fund.

GREEN CAMPUS INITIATIVES

The institution is committed to make its campus green by taking small initiatives and incorporating environment-friendly initiatives in the day to day activities. Plantation drives were undertaken in the campus. Mementos and gifts are replaced by potted plants and books as prizes for winners of various academic and cultural competitions held in the college.

DISABLED-FRIENDLY, BARRIER-FREE ENVIRONMENT (PHASE I)

The building of the Institution has been made disabled friendly by construction of three ramps across the campus to cater to the special needs of the differently abled students.
