SESSION 2020-21

Best Practice I

Title of the Practice: Formation of Parent Teacher Association

Objective of the Practice: The objective of the practice is to provide a platform to the parents and faculty members to interact and jointly take student-centric measures for overall development of the students.

The Context: Involvement of the community in important decision-making in matters where the stake of the students are involved.

The Practice: Parent Teacher Association is formed in this academic session. Under this association, regular meetings are held with the parents and discussions are held on important issues. The views of the parents are given due consideration and decisions are taken accordingly. It is proposed that all the parents of the students enrolled in the college will be members of this Association by default. A small fee of hundred rupees will be included in the admission fee as the membership fee of the Association from next academic session onwards.

Evidence of Success: Regular Meetings are held with the parents. These meetings are chaired by the Principal of the institution.

Problems encountered and Resource Required: Absence of parents from the meetings of the Association is a major obstacle. This hindered in achieving the objective of involving the community in development of the institution.

Best Practice II

Title of the Practice: Eco-friendly Initiatives

Objective of the Practice: The objective of the practice is to make the campus eco-friendly.

The Context: The institution is committed to make its campus green by taking small initiatives and incorporating environment-friendly initiatives in the day to day activities.

The Practice: Plantation drives were undertaken in the campus. Mementos and gifts are replaced by potted plants and books as prizes for winners of various academic and cultural competitions held in the college

Evidence of Success: The above practice has been adopted by all the departments and committees of the college.

Problems encountered and Resource Required: Availability of ornamental potted plants becomes a challenge in the hilly terrain.
